

## **Week 9**

### **Meeting: Thursday May 31 2018**

Ali Alkaheli

What did you do?: worked on powerpoint

What do you plan to do?: worked on powerpoint

What is in your way?: finals

Anthony Nguyen

What did you do?: worked on powerpoint

What do you plan to do?: worked in powerpoint

What is in your way?: finals

David Ip

What did you do?: worked on powerpoint

What do you plan to do?: worked on powerpoint

What is in your way?:finals

Katerina Chinnappan

What did you do?: Worked on the poster, powerpoint

What do you plan to do?: get ready for acceptance test

What is in your way?: everything

Oscar Aguirre

What did you do?: poster presentation

What do you plan to do?: revise and finalize presentation slides

What is in your way?: finals and the will to study

Zeno Nanon

What did you do?: worked on powerpoint

What do you plan to do?: worked on powerpoint

What is in your way?:finals

## **Week 9**

### **Meeting: Tuesday May 29 2018**

Ali Alkaheli

What did you do?: created a tab with its function

What do you plan to do?: running into some errors that I'm trying to fix

What is in your way?: cmps111 lab

Anthony Nguyen

What did you do?: revised poster

What do you plan to do?: revise poster more before it due tonight

What is in your way?: homework from another class

David Ip

What did you do?: helped revise poster

What do you plan to do?: merge work

What is in your way?: CS112 and GE's hw

Katerina Chinnappan

What did you do?: finished writing the custom directive. Done

What do you plan to do?: merge work

What is in your way?: 160 and other stuff

Oscar Aguirre

What did you do?: helped revise poster

What do you plan to do?: merge everything

What is in your way?: 112 and life

Zeno Nanon

What did you do?: completed notifications

What do you plan to do?: create accept a ride button with its functions

What is in your way?: cmps109 asg

## **Week 8**

### **Meeting: Thursday May 24 2018**

Ali Alkaheli

What did you do?: continue wokring on the discord perma link

What do you plan to do?: poster and slides

What is in your way?: cmps111 lab

Anthony Nguyen

What did you do?: worked more on linking driver to another driver

What do you plan to do?:poster

What is in your way?: work in other class

David Ip

What did you do?: worked more on linking driver to another driver

What do you plan to do?:poster

What is in your way?: cs112

Katerina Chinnappan

What did you do?: finishing cost

What do you plan to do?: testing

What is in your way?: 160 and other stuff

Oscar Aguirre

What did you do?: Revised poster and the slides

What do you plan to do?: testing payment further

What is in your way?: 112 and stuff

Zeno Nanon

What did you do?: continue working on notifications

What do you plan to do?: poster and slides

What is in your way?: cmps109 asg

## **Week 8**

### **Meeting: Tuesday May 22 2018**

Ali Alkaheli

What did you do?: Also, have a user enter a perma-link for their discord.

What do you plan to do?: will add a tab the contains the other person info with their discord perma-link.

What is in your way?: cmcs111

Anthony Nguyen

What did you do?: finished linking rider to driver when rider makes a request

What do you plan to do?: merge work with notifications

What is in your way?: homework

David Ip

What did you do?: driver to partner linking through different IDs

What do you plan to do?: merge work

What is in your way?: cs112 homework

Katerina Chinnappan

What did you do?: worked on poster/ error checking for amount

What do you plan to do?: revise the poster before submission/ finish error checking

What is in your way?: 160 exam on thursday and hw

Oscar Aguirre

What did you do?: Worked on the poster

What do you plan to do?: Finish the poster before class on Thursday

What is in your way?: 112 lab due today

Zeno Nanon

What did you do?: test force send notification to a driver and loop thru message tokens and retrieve their values

What do you plan to do?: Implement together

What is in your way?: 109 and Lit 61M

**Week 7**

**Meeting: Thursday May 17 2018**

Ali Alkaheli

What did you do?: Plan out how to create a new tab for drivers for setting a new tab to set perma-link to their own discord chatroom that rider may join once requested.

What do you plan to do?: find a way to make sure its a perma-link

What is in your way?: 111

Anthony Nguyen

What did you do?: still in progress to link rider to driver

What do you plan to do?: still in progress to link rider to driver

What is in your way?: homework in other classes

David Ip

What did you do?: driver to partner linking through same ID

What do you plan to do?: driver to partner linking through different IDs

What is in your way?: 112 homework

Katerina Chinnappan

What did you do?: Able to charge the custom amount now

What do you plan to do?: do some more validation/error checking

What is in your way?: 160 like usual

Oscar Aguirre

What did you do?: Worked on editing the poster

What do you plan to do?: finish the poster by next week

What is in your way?: 112

Zeno Nanon

What did you do?: Partially successful send notification to one user

What do you plan to do?: Continue working on somehow looping through the message tokens of drivers

What is in your way?: 109 and 61M

**Week 7**

**Meeting: Tuesday May 15 2018**

Ali Alkaheli

What did you do?: Optimize car information editing

What do you plan to do?: Implement a new tab

What is in your way?: 111

Anthony Nguyen

What did you do?: currently working on linking a customer to 2 riders

What do you plan to do?: currently working on linking a customer to 2 riders

What is in your way?: time

David Ip

What did you do?: currently working on linking a driver to partner

What do you plan to do?: work on linking drivers and partner

What is in your way?: midterms

Katerina Chinnappan

What did you do?: currently trying to pass the getTripTotalCost to th server to charge the actual amount

What do you plan to do?: complete this and

What is in your way?:

Oscar Aguirre

What did you do?: Still working on displaying the last four digits of the users credit card

What do you plan to do?: Finish that task

What is in your way?: 112

Zeno Nanon

What did you do?: Troubleshooting sending notifications to all drivers

What do you plan to do?: Continue working on somehow looping through the message tokens of drivers

What is in your way?: 109 and 61M

## **Week 6**

**Meeting: Thursday May 10 2018 (meeting on tuesday may 3 2018 cancelled due to strike)**

Ali Alkaheli

What did you do?: Worked with zeno on messaging, and also modified the database

What do you plan to do?: having a messaging set up for both the driver and rider

What is in your way?: other class work

Anthony Nguyen

What did you do?: finally linked two drivers together after numerous bugs

What do you plan to do?: maybe link customer to driver

What is in your way?: nothing

David Ip

What did you do?: finally linked two drivers together after numerous bugs

What do you plan to do?: maybe link customer to driver

What is in your way?: two midterms

Katerina Chinnappan

What did you do?: look how to charge user correct amount

What do you plan to do?: try to achieve that

What is in your way?: 160, family stuff

Oscar Aguirre

What did you do?: Started working on getting the right amount to charge users based on destination

What do you plan to do?: Finish getting the right amount as well as start displaying the last 4 digits of the user's current card

What is in your way?: 112, life

Zeno Nanon

What did you do?: Stash location and message token within the database as well as loop through the users and compare coordinates

What do you plan to do?: create auto send notifications

What is in your way?: CMPS 109 and Lit 61M

## **Week 5**

### **Meeting: Thursday May 3 2018**

Ali Alkaheli

What did you do?: working with zeno on notifying other drivers for request

What do you plan to do?: finish that up with him before sprint 2 is over

What is in your way?: figuring out how to do it when neither of us have experience with firebase

Anthony Nguyen

What did you do?: having users inputting id numbers and retrieving data

What do you plan to do?: linking the two drivers together

What is in your way?: classes, figure out how to do it (research)

David Ip

What did you do?: linking two drivers together

What do you plan to do?: linking two drivers together

What is in your way?: cs 112

Katerina Chinnappan

What did you do?: UX/UI for payment, server/vault

What do you plan to do?: Charging user correct amount

What is in your way?: 160

Oscar Aguirre

What did you do?: Finished setting up the vault so user's can store their cards

What do you plan to do?: Charging the user the right amount for the ride

What is in your way?: 112

Zeno Nanon

What did you do?: Allow driver to see notification that a rider needs a ride using message tokens

What do you plan to do?: Notify rider that driver has arrived.

What is in your way?: CMPS 109

## **Week 5**

**Meeting: Tuesday May 1 2018**

Ali Alkaheli

What did you do?: modified the database so where we can now retrieve data from the database

What do you plan to do?: now i will retrieve the car info to both the setting and profile page of both the driver's and rider's account.

What is in your way?: CMPS111 lab2

Anthony Nguyen

What did you do?: linking two drivers together

What do you plan to do?:linking two drivers together

What is in your way?: classes

David Ip

What did you do?: linking two drivers together

What do you plan to do?: linking two drivers together

What is in your way?: interview

Katerina Chinnappan

What did you do?: Payment server and transactions

What do you plan to do?: finish this

What is in your way?: 160

Oscar Aguirre

What did you do?: Set up the server so users can make transactions

What do you plan to do?: Set up client id to save users cards

What is in your way?: 112

Zeno Nanon

What did you do?: set message tokens for each user in the database

What do you plan to do?: send a notification to the list of drivers that are online once

What is in your way?: CMPS 109 Lab 5

## **Week 4**

**Meeting: Thursday April 26 2018**

Ali Alkaheli

What did you do?: I worked on the signup page when users sign in it will automatically sign them in depending on whether they are driver or rider. (Before we hardcoded where it automatically signs you in as a driver)

What do you plan to do?: deal with database (figure out the reason I can't retrieve data)

What is in your way?: figuring out ways of retrieve data, currently having troubles with

Anthony Nguyen

What did you do?:

What do you plan to do?:

What is in your way?: avengers 3 tonight

David Ip

What did you do?: database stuff. Link driver id to partner id

What do you plan to do?: still in progress of task

What is in your way?: interview on tuesday 5/1

Katerina Chinnappan

What did you do?: Continue to work on server with Oscar

What do you plan to do?: Hopefully get the server working

What is in your way?: 160 and other things

Oscar Aguirre

What did you do?: Continue working on the server side for the payment system

What do you plan to do?: Finish implementing the server side to make dummy transactions

What is in your way?: Some bugs that doesn't display the page, life

Zeno Nanon

What did you do?: Research a sort algorithms and how to use the service worker of firebase

What do you plan to do?: send dummy notifications through the service worker

What is in your way?: CMPS 109 Lab 4

#### **Week 4**

**Meeting: Tuesday April 24 2018**

Ali Alkaheli

What did you do?: users sign up with car information which gets saved in the database

What do you plan to do?: figure out how to post it on different pages

What is in your way?: cmpts111 lab2 and hw2,

Anthony Nguyen

What did you do?: analyze code and debug code

What do you plan to do?: working on linking a driver to another driver

What is in your way?: not sure how to do it yet

David Ip

What did you do?: debugging code

What do you plan to do?: working on linking a driver to another driver

What is in your way?: not sure how to do it yet

Katerina Chinnappan

What did you do?: Continue with vault and UI

What do you plan to do?: Finish the payment

What is in your way?: CMPS 160 and other stuff

Oscar Aguirre

What did you do?: look at docs to set up server side of payment method

What do you plan to do?: Set up the server to make dummy transactions

What is in your way?: 112, life

Zeno Nanon

What did you do?: Researching algorithms for notifying users in a database based on location

What do you plan to do?: Send notifications to all drivers starting from Santa Cruz in a radius

What is in your way?: CS 109 Labs and Lit 61M Essay

### **Week 3**

**Meeting: Thursday April 19 2018**

Ali Alkaheli

What did you do?: searched up ways of setting up the driver toolbar

What do you plan to do?: i will have users fill out car info when signing it

What is in your way?: cmps111 lab and hw asg due this week and lit essay

Anthony Nguyen

What did you do?: worked more on database with david. Had to add partner name.

What do you plan to do?: make profile page look better

What is in your way?: classes

David Ip

What did you do?: Added partner name for the driver profile in the database

What do you plan to do?: make driver able to change car, partner, and personal info

What is in your way?: nothing

Katerina Chinnappan

What did you do?: Reading up on the braintree vault stuff

What do you plan to do?: Finish setting it up

What is in your way?: CMPS 160 assignment :(

Oscar Aguirre

What did you do? Discussed with the group about the payment system and how it's going to be

structured

What do you plan to do?: Finish the server side on the payment system

What is in your way?: other classes, applying for jobs

Zeno Nanon

What did you do?: Implement the setting tab on the toolbar with Ali

What do you plan to do?: Send notifications to all drivers starting from Santa Cruz in a radius

What is in your way?: CS 109 Labs

### **Week 3**

**Meeting: Tuesday April 17 2018**

Ali Alkaheli

What did you do?: set up the driver toolbar

What do you plan to do?: continue finishing up the setting page

What is in your way?: cmps111 lab2

Anthony Nguyen

What did you do?: Created driver profile.

What do you plan to do?: Make the CSS better, and add partner aspect.

What is in your way?: Other classes.

David Ip

What did you do?: Created driver profile.

What do you plan to do?: Make the CSS better, and add partner aspect.

What is in your way?: CS112 lab 1.

Katerina Chinnappan

What did you do?: Working with Oscar, implementing payment UI and server

What do you plan to do?: Finish up the google payment

What is in your way?:nothing

Oscar Aguirre

What did you do? Working with Katerina, implementing payment UI and server

What do you plan to do?: Finish the server side for braintree

What is in your way?: CS112, life

Zeno Nanon

What did you do?: Established a driver toolbar as well as redirect the logged in user to the driver login

What do you plan to do?: Working on setting page for driver

What is in your way?: CMPS 109 Lab 2 & 3

## **Week 2**

**Meeting: Thursday April 12 2018**

Ali Alkaheli

What did you do?: Set up the page for the setting page

What do you plan to do?: continue working on the setting page

What is in your way?: CMPS 111 lab2 hw 1

Anthony Nguyen

What did you do?: still working on profile page for driver

What do you plan to do?: finish profile page for driver

What is in your way?: homework from other classes taking time

David Ip

What did you do?: Met up with Anthony and discussed plans and design for driver profile

What do you plan to do?: finish profile page for driver

What is in your way?: homework from other classes

Katerina Chinnappan

What did you do?: Look thru the codebase for DDS, read documentation for Vuex, google payment

What do you plan to do?: I plan to add the payment functionality working with Oscar

What is in your way?: Nothing major just some things but nothing big.

Oscar Aguirre

What did you do?: Looked at the Google Pay and Braintree docs to learn how to implement a payment system in the system. Look thru the codebase for DDS.

What do you plan to do?: Add the payment functionality working with Katerina

What is in your way?: Classes, graduation, stress, work

Zeno Nanon

What did you do?: look into ways of how the setting format should look like

What do you plan to do?: continue working on the setting page

What is in your way?: he is sick

## **Week 2**

**Meeting: Tuesday April 10 2018**(This was the first meeting of the quarter. We did not have a meeting in the 1st week because our whole team was not formed until the Friday of that week.)

Ali Alkaheli

What did you do?: Nothing

What do you plan to do?: Working on setting page for driver

What is in your way?: CMPS111 lab2 and hw1

Anthony Nguyen

What did you do?: Nothing

What do you plan to do?: Working on profile page for driver

What is in your way?:nothing

David Ip

What did you do?: Nothing

What do you plan to do?: Working on profile page for driver

What is in your way?:nothing

Katerina Chinnappan

What did you do?: Nothing

What do you plan to do?:Working on payment system for website

What is in your way?:nothing

Oscar Aguirre

What did you do?: Nothing

What do you plan to do?: Working on payment system for website

What is in your way?: nothing

Zeno Nanon

What did you do?: Nothing

What do you plan to do?: Working on setting page for driver

What is in your way?: nothing
