Project Title: Designated Driver Service
Project Owner (Sponsor): Todd Anderson
Project Owner (in CS116): Daniel Stansberry
Scrum Masters (Sprint 3): Anjali Kanthilal

Sprint 3 Start Date: 2/21/18
Sprint 3 Completion Date: 3/8/18

GOAL: Developers need to create a majority of the Front-End pages of the application, set up the back end, and start connecting the two.

★ **USER STORY 1: (13)** As a Front-End Developer, I want to create a settings and profile page, and allow users to log out of their accounts.
  ○ Task 1: Create a settings page so users can access their information and the services' important pages.
  ○ Task 2: Create a profile page so users can see their stored date.
  ○ Task 3: Create a log out function so users can log out of their accounts.
★ **USER STORY: (13)** As a Back-End Developer, I want to set up Firebase and start connecting it to the site.
  ○ Task 4: Set up Firebase.
  ○ Task 5: Set up functions (idle, in ride).
  ○ Task 6: Set up Firebase Cloud messaging.
  ○ Task 7: Set up Firebase notifications on the website (after logging in).
